**WHEREAS**, state agencies and local jurisdictions are coordinating resources to address damages to residences, public utilities, roadways and to assess damage caused by the storms, and implement damage repairs; and

**WHEREAS**, storm damages, including the cost of repairs and ongoing impacts, currently exceed \$3 million and the effects of the storms continue to impact the life and health of the people as well as the property and infrastructure of Washington State, all of which is a public disaster that affects life, health, property, or the public peace; and

**WHEREAS**, the Washington State Military Department has been monitoring and coordinating supporting actions through the State Emergency Operations Center, implementing emergency response procedures, and is coordinating resources to support local officials in alleviating the immediate social and economic impacts to people, property, and infrastructure, and is continuing to assess the magnitude of the event.
